As we sat in the cozy ambiance of Cafe Berlin, engaged in a delightful conversation with Madam Heidi, she nonchalantly revealed her intriguing past as a founding member of the "Daughters of the Vril Society."
This revelation took place during the tumultuous final

Her narrative took a darker turn as she recounted the arrival of American forces, whom she referred to as the "Quartermaster Gangsters," suggesting they were brought in by the underworld from the docks of New Jersey.
She likened their sudden

In a single night, these American troops dismantled the entire Munich Black Market, conducting ruthless military police raids that led

to the unjust arrest of many honorable Germans striving to survive amid the ruins of what was once Germany's most enchanting city.
This city had been a vibrant hub for various metaphysical groups and spiritual societies, including her mother's own Society of the Vril, which had thrived before the war's

This conversation proved to be truly captivating, as it brought to mind an article I had read in "The Saturday Evening Post" regarding her mother's metaphysical society.
Intrigued, I decided to inquire directly about the intriguing assertion that her mother's

This concept resonated with me, particularly because it echoed the long-held aspirations of my late Uncle Albert, who had dedicated much of his life to exploring the possibility of accessing

It was likely not the most appropriate question to pose to her, or perhaps it was simply the blunt manner in which I introduced it into our otherwise lighthearted conversation.
Until that moment, we had

The reason for her reaching out to me was quite significant. Herr Schmitt, who had served as her father's aide-de-camp during the early days of the war in the east, believed that I could play a crucial role in securing the release of her society sisters.

These women were
